	1x17cm Trench Mortar battery (1 stand)		
	2x76cm Trench Mortar battery (1 stand)		
Divisional Engineers	1xEngineer stand		

**German forces scenario notes:**

1. The German player has 12 pillboxes available for placement on the table, each capable of holding 1 MMG stand or 1 fighting stand.
2. The German player also has four major strong points available for placement on the table (these were fortified farms and should be treated as Pillboxes in GWSH terms).
3. All fortifications must be placed prior to the start of the game, and deployment of forces in these noted before any preliminary bombardment occurs. Figures in hidden emplacements need only be placed when they come within visibility of enemy troops.
